Family Fun Night - Kickball,  
6:30 PM

## Saturday - 12th

Bowling Meet @ New Hope  
Bowl, Minneapolis, 12:30 PM

## News and Updates

**Religion:** David grieved the death of Saul and felt true sorrow over his sins. We know that we too are sinners who fall pray to temptation. Therefore we pray that God would forgive us and give us strength to forgive our enemies and flee from temptation.

**Math:** The 5th graders learned about ratios, applied negative numbers to real world scenarios, and lined up the decimals to add and subtract. The 6th grade math class continued their concept of canceling before calculating and figure out functions.

**English:** The students took time this week to write essays to complete their D.A.R.E. class. I have loved reading all the things these growing students have learned. I can't wait to hear how they use these skills as they grow up. We finished out the week reviewing predicate adjectives and using comparative and superlative adjectives.

### Reminders...

- G.I.G.A.T.T! (Ask your child what it means)
- PTO is having another Family Fun Night soon! May 11th @ 6:30 PM we will have a kickball night. Hope to see you there!

**Reading:** We see the clever Toad break out of jail and make his way home... or so he hoped. He had to hop off the train to avoid his pursuers. What will these animals get into next?

**Science:** After finishing our lesson about the various mixtures and solutions in our world, we conducted some experiments. From expanding and contracting water bottles to dissolving sugar cubes and layers of liquids, we observed the properties of certain matter. We also separated out a mystery mixture and observed chemical reactions using kitchen powders and a variety of liquids. The students enjoyed these hands-on activities, even at expense of having goggles on face.

**Social Studies:** We sped through Western European history, hitting the ancient civilizations, the Middle Ages, the Renaissance, the Industrial Revolution, and the World Wars. I hope the students take an interest in some of this history in the future, because there is so much more out there that I could never teach them. We wrapped up the week identifying aspects of European culture that unite and divide the continent.

**Teacher's Note:** Thank you for your support as we near the end of the year. Keep encouraging your child to do their best and give glory to their Lord and Savior every day. If you have any questions during this final quarter, let me know. As always, "I thank my God every time I remember you." (Philippians 1:3-11) God bless your week!

The students take a taste of Warheads. Picture perfect faces :)
